

SPUTNIC - First Plenary Session

Budapest 23/24 November 2006

Session (almost) finished- and now?

The way forward...

SPUTNIC – Strategies for Public Transport in Cities
<http://www.sputnicproject.eu/>

Objective of the plenary session

To find the right direction...

...to make sure we are facing the same direction.

What is our role?
What is expecting from me?

The key persons are you!

We need you...

...as you set the rhythm and pace of discussions;

**...to make sure that
cluster leaders don't
lose the track;**

**...as everything is easier
with some nice
guidance!**

**How to discover
what I can't follow
directly?**

Viszontlátásra Budapest!
